

Operating in the Lynnwood Community Hall in the west end of Edmonton, our nonprofit, parent cooperative playschool focuses on providing enriching and fun learning experiences for 3 and 4 year old children.

In addition to strengthening socialization skills and learning accepted behaviors, our playschool provides a place where your child can gain a sense of self, explore, play with his/her peers, grow intellectually and build confidence.

In addition to the standard programming of pre-literacy, early numeracy, crafts and learn through play, we also have science, yoga, Zumba, cooking and Spanish!

Our playschool is one of the few in Edmonton that are non-roster with no parent duty days – we employ two qualified staff to teach our classes. This is helpful for those parents who could use a few extra hours in the day to run errands or relax! You can have complete confidence that your children are in the best hands; learning, making friends, and having fun.

Even though we are non-roster, our school depends on the active participation of all parents to run our organization. As a parent, you are required to volunteer in some capacity, while there are volunteer positions that suit all schedules, if you aren't willing or able to give time, you may want to reconsider registering your child.

Non-Roster – Subsidy Available

3 Year Old Program

Learning through play

Think of this class as an enriched play date, where your child will gain confidence and independence, develop their social skills and start their learning journey!

FREE PLAY

Students learn important social, language, and creative skills. The three year old class has less structured learning and more focus on play while being introduced to structured class activities.

CIRCLE TIME

Students are introduced to numbers, alphabet, calendar, weather, songs, all while teaching important social behavior (such as taking turns) and manners.

CRAFT TIME

Students are able to develop their creativity, concentration, and fine motor skills.

KINDERCOOK

Students learn to follow directions, measure, mix ingredients and work cooperatively while making something good to eat.

GYM & OUTDOOR TIME

Students explore the outside playground or the indoor gymnasium, developing gross motor skills.

Fees & Times

REGISTRATION FEES

A non-refundable \$100 fee is required upon receipt of registration.

VOLUNTEER DEPOSITS

While we are non-roster, our school is still run by our parents. We require a \$100 cheque, dated February 1/2016. The cheque is not cashed unless you fail to participate on a committee.

Additionally, Casino and Bingo volunteering is mandatory, and we require a \$300 cheque that is not cashed, unless the fundraising duties are not fulfilled.

3 YEAR OLD \$130 per month

Morning classes are available on Tuesdays and Thursdays. Classes run from 9 am until 11:30 am.

4 YEAR OLD \$150 per month

Morning or afternoon classes are available on Mondays, Wednesdays and Fridays.

Morning classes run from 9 am until 11:30 am. Afternoon classes run from 12:30 pm to 3 pm.

4 Year Old Program

Kindergarten preparation

Building upon the foundations of the three year old program, this class offers more structured learning and focused tasks to help prepare students for the transition to Kindergarten.

FREE PLAY

Students learn important social, language, and creative skills.

CIRCLE TIME/SPANISH

Numbers, alphabet, calendar, weather and songs are reinforced. Additionally, they learn basic Spanish including counting to 10, primary colors, days of the week, months of the year and basic shapes.

CRAFT/JOURNAL TIME

Students are able to develop their creativity, concentration and fine motor skills.

KINDERCOOK

Students learn to follow directions, measure mix ingredients and work cooperatively.

GYM & OUTDOOR TIME

Students explore the outside playground or the indoor gymnasium, developing gross motor skills.

YOGA

A bi-weekly class taught by a certified Yoga teacher. Yoga improves focus, memory and the powers of concentration while developing a sense of calm.

SCIENCE

Conducting experiments and learning basic science ideas.
